

Department of BUSINESS ADMINISTRATION
College of Administrative and financial science
Cihan University

Subject: logistic Management

Course Book – – Semester 2

Stage 3

Lecturer's name: Soran Hama Saeed

Academic Year: /2022-2023

Course Book

1. Course name	Logistic Managemet
2. Lecturer in charge	SORAN HAMA SAEED
3. Department/ College	Business Administration
4. Contact	e-mail: Soran.hsalih@sulicihan.krd.com Tel: 07702178526- 07719891820
5. Time (in hours) per week	2hours
6. Office hours	
7. Course code	
8. Teacher's academic profile	https://sites.google.com/a/univsul.edu.iq-soran
9. 9-Keywords	Administration
<p>10. Course overview: The term logistics commonly refers to the planning, management and control of tangible as well as intangible flows of goods. These move between several companies, within a company or between suppliers and end consumers. Logistics thus includes flows of goods and information, but also flows of people.</p> <p>Logistic managemet tackles the current and emerging trends, ethics, and challenges in public administration with the most comprehensive. They give you a behind the scenes look at day-to-day operations while examining the policies implemented and the procedures undertaken across the various levels of American government. The most current applications of logistic management are discussed and analysed, with up to date coverage of recent education initiatives such as Race to the Top, the ongoing health care debates, Homeland Security challenges and threats, and much more. To encourage student engagement, the Eleventh Edition introduces two new features, "Point/Counterpoint" and "What Would You Decide?" where students are invited to play an active role in debating and discussing some of the most up-to-date topics. Presented in a comprehensive and easy-to-understand format, logistic IN UNIVERSITY builds student knowledge of core concepts while showing them the path to an exciting and fulfilling career in politics and public administration--where they can make a difference!</p>	
<p>11. Course objective: <u>The objectives of this chapter are to:</u></p> <ul style="list-style-type: none"> • <u>We prepare public administrators to: (1) practice skilful and evidence-based public service; (2) conduct and communicate program evaluations and policy analyses that inform the diverse fields within public service; and (3) provide interdisciplinary</u> 	

expertise in the service of academic, professional, and community-based public service organizations.

12. Student's obligation

- 1- Students will be required to provide a summary of each chapter that will be discussed in class to see their understanding of the lecture.
- 2- Quizzes will be given at the end of each chapter to test students' knowledge of the subject.
- 3- Case studies will be given to students to analyse and provide summary of the case.

13. Forms of teaching

Class time is primarily devoted to lectures, using PowerPoint presentation. Also, data show will be used in the lectures

14. Assessment scheme

Breakdown of overall assessment and examination

- Presentation/ Discussion Report/ Classroom participation: 5%
- Assignment and quizzes: 5%
- Mid-term Examination: 30%
- Final Examination: 60%

15. Student learning outcome:

At the end of this chapter, you will be able to:

1. Students will understand the US **logistic management** and systems and organizations.
2. Students will demonstrate appropriate administrative and logistic management and skills required in the healthcare sector.
3. Students will understand the logistic management process and demonstrate the ability to contribute to healthcare policy.
4. Students will demonstrate the ability to communicate and interact productively with diverse and changing healthcare workforce and logistic management

16. Course Reading List and References:
