 The course offers an introduction to Translation from history and gives a summary of the different phases. It provides the students with an account of the history, its features, and the main procedures and types of translation.

 In this course, we seek to answer daily questions about translation and its challenges and difficulties, also both theoretical and practical frameworks inside and outside of class will be followed.

 Finally, students are introduced to different pieces of translation from Source into Target languages.

10 Course Objectives:

- a) Assisting the students to understand the context of the definition of Translation.
- b) Increasing the students' abilities to translate and interpret different masterpieces of works.
- c) Extending the use of language, expressing ability of ideas and feelings, experiencing collaborative team working in groups, developing compassion, and making positive contributions to society, developing skills

like problem-solving, time management, and communication, contributing to lifelong learning and career skills.

- d) Increasing creativity in translation and achieving competence in translation and interpretation.
- e) Practicing the translation processes from English-source language into Kurdish-Target Language.

11 Course Requirements:

- + Students will be the center of the class.
- + Students have to be punctual and regularly attend classes.
- + Students are required to participate in and discuss the material presented in the class.
- + Students are required to be prepared for the subjects discussed and given assignments.
- + Students need to read texts, ask questions, get ready to share their parts with their colleagues and develop their critical thinking competencies.
- + Students should simply be a part of the collaborative progressive atmosphere of the lecture.
- + Students are required to translate and publish their works in local and/or international media agencies.
